As you may be aware, the U.S. Department of Labor has approved significant changes to the Fair Labor Standards Act as it relates to payment of overtime to "exempt" workers. These rule changes will become effective December 1, 2016 and will impact **all** businesses and organizations, regardless of industry type or size. MODC has prepared a fact sheet to provide you with an overview of the changes, as well as some key points to consider when deciding how to adapt to the new regulations.

The Power of Brainstorming and Why You Need To Do It Now!

"You cannot mandate productivity; you must provide the tools to let people become their best." - Steve Jobs

The buzz phrase "**Employee Engagement**" gets bantered around on a regular basis and for good reason. Staff is added to any organization to leverage the skills of the founders, executives, and managers so that a company can grow exponentially. The best companies always have the best trained, best motivated, and most **engaged employees**. The staff understands the vision of the company's leaders, why it is important, what needs to get done, and where they fit within the "big picture."
